**Database:** MongoDB. MySQL

---

## PROJECTS

<https://minisho.netlify.app/>

Developed a fully responsive frontend application using React.js, managing and integrating APIs efficiently. Implemented an Add-to-Cart system and styled the application with Tailwind CSS for a modern, mobile-friendly design.

<https://developernishant-code.github.io/Weatherapp/>

The weather app will display the current temperature, weather conditions, humidity, and wind speed in a clean and responsive interface
